STRONG UPTIME AND HIGH BANDWIDTH UTILIZATION.

SUCCESS STORY

ENGAGEMENT:

Project Based

INDUSTRY:

FMCG

OFFERING:

Oracle EBS on
Amazon Web Services

LOCATION:

Goregaon East, Mumbai,
Maharashtra, India

COMPANY PROFILE

Customer is one of India's leading frozen food manufacturers and distributors catering to a massive consumer demand for frozen foods in India and abroad.

Challenges

- Client didn't want to invest on Capex and needed a new agile development environment.
- They were unable to maintain a good uptime due to networking and bandwidth issues.

SOLUTION

- The client opted for AWS that offers a virtual private cloud (VPC) where they can define all networking policies without worrying about the hardware or infrastructure required.
- Defined software based firewall and routing policies, making it easy and quick to make changes in the network.
- Deployed Oracle E-Business Suite with access to over 100 users.

Advantages

- 99.95% uptime SLA for every virtual server
- Could easily connect to their workspaces and applications using a secured VPN connection and define their own routing and firewall policies.
- Attained the stability of servers which is one of the major plus points AWS adds to their customer benefits.
- The deployment of Oracle EBS on AWS hence delivered reliable, agile, and cost effective solution meeting all the business-critical needs of the client.

ABOUT PROGRESSIVE INFOTECH

Trusted IT partner since 1998, Progressive Infotech provides comprehensive suite of transformation and support services. The offerings span across cloud, digital and support operations, delivered through a matured and scalable service delivery model. In every client engagement, Progressive ensures clients realize higher ROI, stretch the intrinsic value of existing IT investments and are better prepared for emergent market changes.

Progressive Infotech is consistently featured as a “mature vendor for IT Outsourcing” in the Gartner hype cycle report for ICT in India for last few years.
