

# ENTERPRISE BACKUP AND DISASTER RECOVERY FOR A GLOBAL FASHION BRAND

## SUCCESS STORY

### **ENGAGEMENT:**

Short-term

### **INDUSTRY:**

Retail

### **OFFERING:**

Enterprise Backup  
& DR

### **BUSINESS CHALLENGE**

- Client was using traditional tape backup hence offsite tape management was a tedious job
- No offsite disaster recovery
- No Centralized monitoring, alerting and reporting

“Real-time offsite replication of protected data”

### Our Solution

Progressive Infotech's Mydatasync, was deployed for all type of workloads including Hyper-V VM, end user, SQL, file system including Linux and Windows backups. Implemented DS system replication for real time replication of protected data. Used DS-NOC for central management for all backups. Single dashboard for monitoring, log management and alerting & reporting. Our agentless software architecture provides simple deployment and easy management while providing advanced features that include global de-duplication, automated mass deployment, autonomic healing, and validation restore capabilities.

- Around 50+ servers were backed up using Mydatasync
- Real-time replication of protected data
- High-performance data recovery as compared to tape
- Single integrated solution for all data protection needs
- Optimization of IT resources for enhanced utilization
- Data encryption that secures data in-flight and at-rest with full support of compliance requirements
