## SUCCESS STORY

**CUSTOMER:**

Raymond

**WEB SITE:**

[www.raymond.in](http://www.raymond.in)

**LOCATION:**

Pandurang Budhkar Marg,  
Worli, Mumbai, India

**INDUSTRY:**

Textiles

**OFFERING:**

Asset Management Tool

**COMPANY OVERVIEW**

Raymond is an Indian branded fabric and fashion retailer, operating globally with a network of over 700 retail shops across India and overseas, in over 200 cities. It produces suiting fabric, with a capacity of producing 31 million meters of wool and wool-blended fabrics.

## **KEY BUSINESS CHALLENGES**

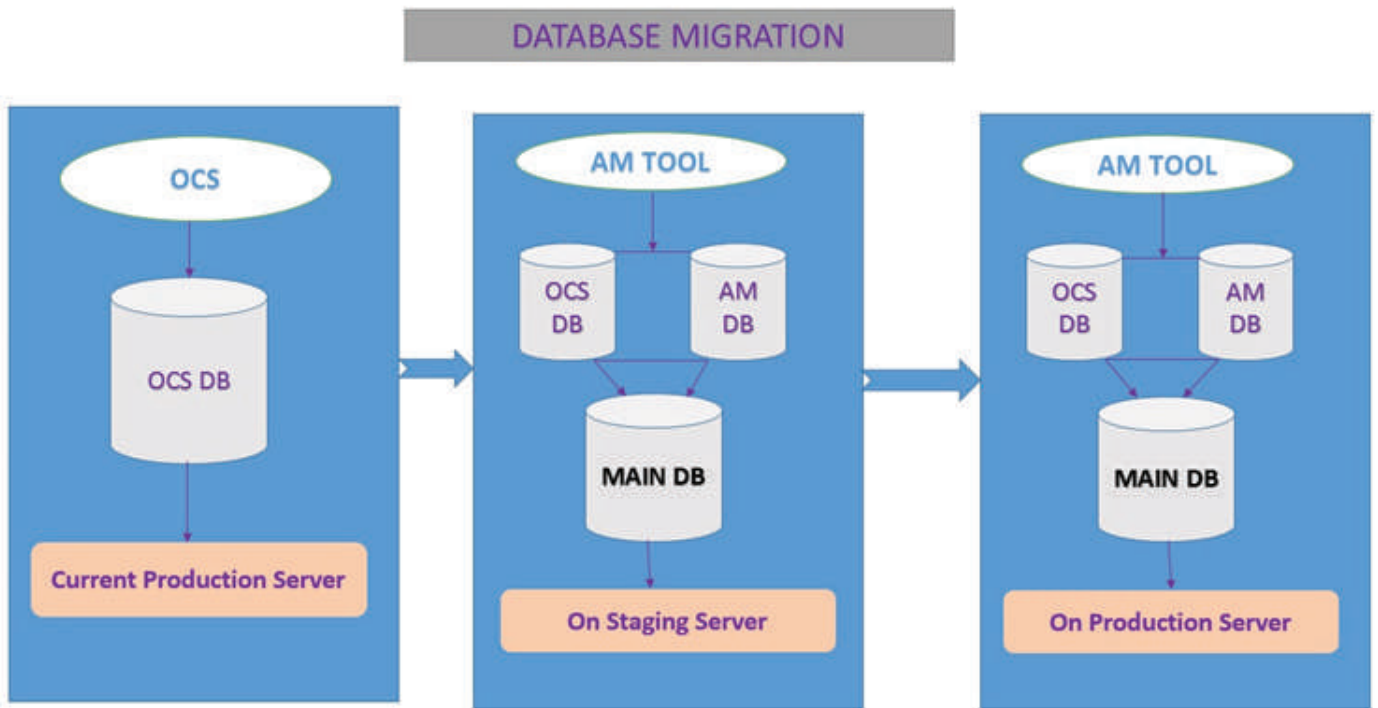

- Manual tracking of all the assets in the network.
- Comprehensive asset information like hardware specifications, software installed, software licenses, scan history, asset ownership history and more within a single pane of glass.
- Lack of real-time visibility into assets at the network level.
- No separate inventory or warehouse for asset management.

## **SOLUTION**

- Our solution was primarily around Technology Practices as mentioned below:
  - Language: PHP
  - Framework: Laravel
  - Web-server: Apache
  - Database: My SQL
  - Discovery Tool: OCS
- Automated supplier interactions and IT asset purchases.
- Built a separate inventory to manage all IT assets.
- Windows domain scan, script scan, or agent-based scan to discover all Windows machines.
- Implemented the network scan to discover non-windows machines, VMHost machines, and IP devices.

## **BENEFITS**

- Gained complete traceability and visibility into master records of their vendors, track purchases from ordering to receipt and invoicing
- Automation of asset discovery, scanning, tracking and inventory management minimized delays in asset delivery.
- Elimination of unnecessary spending and labor cost with 360° visibility into each and every asset in the client's network.
- Reduced manpower with central management of all enterprise assets.

### ABOUT PROGRESSIVE INFOTECH

Trusted IT partner since 1998, Progressive Infotech provides comprehensive suite of transformation and support services. The offerings span across cloud, digital and support operations, delivered through a matured and scalable service delivery model. In every client engagement, Progressive ensures clients realize higher ROI, stretch the intrinsic value of existing IT investments and are better prepared for emergent market changes.

Progressive Infotech is consistently featured as a “mature vendor for IT Outsourcing” in the Gartner hype cycle report for ICT in India for last few years.
