

A LEADING CONGLOMERATE USES AWS AS THEIR ENTERPRISE STORAGE SOLUTION

SUCCESS STORY

ENGAGEMENT

MULTI YEAR

INDUSTRY

FMCG

OFFERING

STORAGE ON CLOUD

COMPANY PROFILE

The client is one of the largest players in the domestic cigarette industry. The company with an annual turnover of approx. Rs 4,220 crores (2013-14) has expanded business interests in tea, pan masala and confectionary.

CHALLENGES

The client needed a storage management solution through which they could easily create corporate level file storage on cloud with managed rights for each user.

“The flexibility and features provided by Amazon S3 are above par to any other cloud storage or on-premise solution”

– Chief Information Officer

Solution

We suggested a combination of S3, IAM and 3rd party S3 accessibility tools to chart a solution for their enterprise storage needs. With this we could regulate the data access and permissions for each individual with their respective roles on all types of devices like laptops, tablets and mobiles

Advantages

S3 provides a cheap but highly durable and redundant storage on cloud. With IAM and S3 bucket policies you can easily define the access policies for your staff or outside users.

ABOUT PROGRESSIVE INFOTECH

Trusted IT partner since 1998, Progressive Infotech provides comprehensive suite of transformation and support services. The offerings span across cloud, digital and support operations, delivered through a matured and scalable service delivery model. In every client engagement, Progressive ensures clients realize higher ROI, stretch the intrinsic value of existing IT investments and are better prepared for emergent market changes.

Progressive Infotech is consistently featured as a “mature vendor for IT Outsourcing” in the Gartner hype cycle report for ICT in India for last few years.
